

True Leveraged Compensation

Every TLC Rep has an equal chance to earn. Start with a very fast FRONT END 2x3 expanding Matrix. With weekly payouts, even a new rep can get into profits fast. Once your team starts growing move into the BACK END pay built to create large residual earning on 5 generations.

All of this is created on a simple \$40 autoship.

YOU 2x3 Expanding Matrix

This fast moving 2x3 Expanding Matrix fills with only 14 Rep / Customers (Legs A & B). Whether you have brought any of these new people to TLC or not, a full Matrix pays you - \$84.

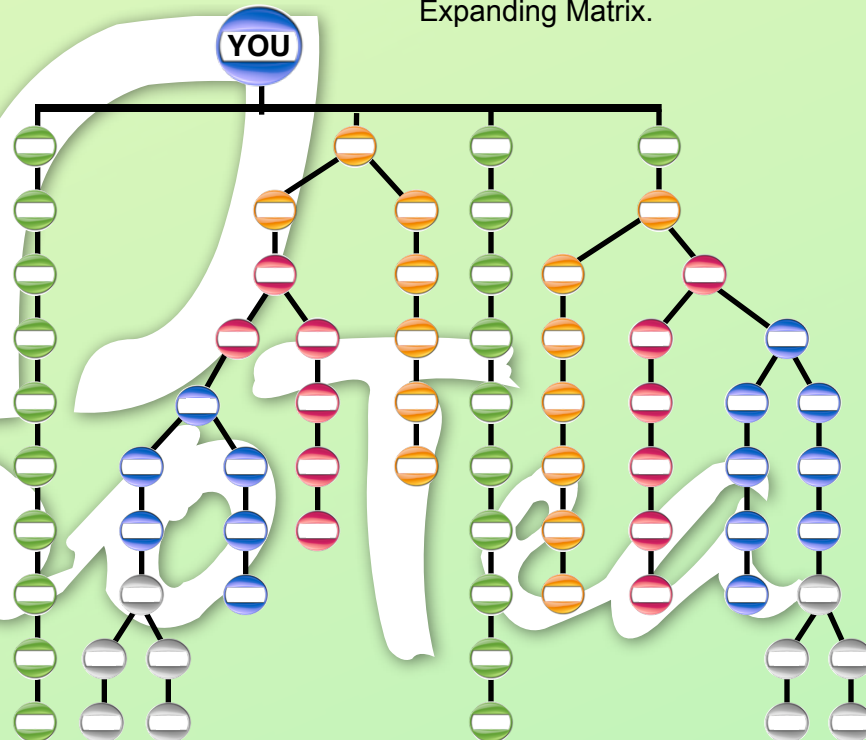

Once your Matrix fills, your next personally sponsored Rep starts a new leg (LEG C). Once this new leg fills you are now making \$126 and your next personally sponsored Rep / Customer starts another leg (LEG D). There are no limits to the the width of your Expanding Matrix.

Generational Pay

Once your total Group Volume (GV), reaches \$1,500 you'll move from "level pay" to "generational pay."

A "generation" is defined as ALL the sales volume in any "leg" of your organization between you and the next qualified "Generational Member" (someone who has \$1,500 GV or higher). Your first generation starts with you at the top and continues down each of your legs until the computer finds another qualified Member with \$1,500 GV or higher.

When you look at the Generational commission percentages you'll see that you always earn 5% on all the sales volume in each generation of each leg.

Generations	Silver 1,500 GV	Gold 3,000 GV	Diamond 10,000 GV	Platinum 25,000 GV
1	5%	5%	5%	5%
2	5%	5%	5%	5%
3	5%	5%	5%	5%
4		5%	5%	5%
5			5%	5%
6				5%
Rank Advancement Bonus	TLC Gear worth \$150	iPod (80GB)	TLC Diamond Class Ring	Tag Link Watch

*Note: GV is your Group Volume this is figured by your sponsorship tree. No more than 50% of your volume can come from any one leg.
 ** All statements on earning potential are not guaranteed. Your earnings will vary.
